Project Goals & Problem Descriptions	3/3
Project Management	0/2
Key Ideas of Solutions	5/5
Interrupt & Interrupt Handler & Their Interactions with OS and HW	10/10
How are all components integrated together into your designed system	10/10
Insertion of inline assembly & its effect on the disassembly code	0/10
What is the purpose of MAX? How is it experimentally determined?	0/5
Summary and Suggestions	5/5
Compilation	35/35
Comments & README	10/10
Total	83/100

Comments:

You didn't talk about project management, the inline assembly, and the purpose of MAX.

Note: Please make sure you completely upload your project file before exiting your browser. Your zip file was corrupted, and

produced a .cpgz, which produced a .gz, and so forth, in an infinite loop. I had to download other programs to open it.
